## Are SOME HOUSEWIVES TOO CARELESS in this respect?

NO matter how careful one may be in selecting the very choicest ingredients for making a cake, if you do not have the right kind of shortening the cake is likely to be heavy, soggy and hard to digest.

One reason for this may be that both butter and lard contain a certain percentage of water.

ON the other hand, Mazola, the great American cooking and salad oil, is absolutely free from water. It mixes perfectly with your cake ingredients, and prevents lumps from forming. Mazola is more economical than butter or lard. If your recipe calls for, say, a cupful of butter or lard, you need use only ¾ of a cupful of Mazola. Mazola is sold by all grocers.

### to make the LIGHTEST most DELICIOUS CAKE

A wonderful cake batter that can be used for plain cake or layers is as follows:

¾ cup sugar, ¾ cup Mazola (6 tablespoons), ½ teaspoon salt, ½ cup water, 1½ cups sifted pastry flour, 2 teaspoons baking powder, 1 teaspoon vanilla flavoring. Break 2 eggs, add sugar and beat with Dover beater until light and thick. Add Mazola and water and beat until thoroughly mixed. Fold in sifted dry ingredients. Bake in pans oiled with Mazola.
